Dear Sir,

We would like to state that, Environment Clearance accorded by State Environmental Impact Assessment Authority (SEIAA), West Bengal for Expansion of Non Recovery type Coke Oven Plant from 60,000, TPA to 90,000 TPA low ash Metallurgical Coke at Mouza Mathura Kismat, PO- Samiraipur, PS- Kharagpur, District- West Medinipur, West Bengal vide File no. – EN/2927/T-II-1/077/2010/1(3) dated 19.10.2010

From EC sanctioned capacity after obtaining NOC from West Bengal Pollution Control Board, CTO was obtained by the old management. The plant was having last consent to operate valid till May 2013.

M/s. Wellman Carbo Metalicks India Limited has gone in 'Liquidation' & Orissa Metaliks Private Limited (OMPL) has purchased/acquired the assets of Wellman Carbo Metalicks India Limited on "assets sale basis" under liquidation under the order (I.A (IB) 397/KB/2021, dated 25.11.2021) connected with CP (IB) No. 132/KB/2018 of the National Company Law Tribunal (NCLT) Kolkata bench, Kolkata after being a 'Successful Bidder'.

Now, the new management (OMPL) intends to operate the plant under the name of Wellman Carbo Metalicks India Limited and currently revamping and maintenance work is going on and company has applied for renewal of consent to operate to West Bengal Pollution Control Board with statutory fees vide application no- 3514180 dated 10.03.2023.

We assure that we will comply with all the conditions laid down in the consent letter and also abide to follow all the Rules & Regulations.

Hope you will find the same in order.

Thanking you

For, M/ Wellman Carbo Metaliks India Limited

Name of the Project: -

Proposed Expansion of Non Recovery type Coke Oven Plant from 60,000, TPA to 90,000 TPA low ash Metallurgical Coke at Mouza Mathura Kismat, PO- Samiraipur, PS- Kharagpur, District- West Medinipur, West Bengal.

EC Clearance Letter No. and date: -

EC No. – EN/2927/T-II-1/077/2010/1(3) dated 19.10.2010.

Period of Compliance Report: -

October 2022 to March 2023

A.	SPECIFIC CONDITIONS	COMPLIANCE STATUS
i.	<p>The gaseous and particulate emissions from various process units should conform to the load mass based standards prescribed by the Ministry of Environment & Forests and the State Pollution Control Board from time to time. At no time the emission level should go beyond the prescribed standards.</p>	<p>Agreed and noted.</p> <p>The plant was having last consent to operate valid till May 2013. M/s. Wellman Carbo Metalicks India Limited has gone in 'Liquidation' & Orissa Metaliks Private Limited (OMPL) has purchased/acquired the assets of Wellman Carbo Metalicks India Limited on "assets sale basis" under liquidation under the order (I.A (IB) 397/KB/2021, dated 25.11.2021) connected with CP (IB) No. 132/KB/2018 of the National Company Law Tribunal (NCLT) Kolkata bench, Kolkata after being a 'Successful Bidder'.</p> <p>Now, the new management (OMPL) intends to operate the plant under the name of Wellman Carbo Metalicks India Limited and currently revamping and maintenance work is going on and company has applied for renewal of consent to operate to West Bengal Pollution Control Board with statutory fees vide application no- 3514180 dated 10.03.2023.</p> <p>The company will ensure that the emissions from the processing units will conform to load mass based standards prescribed by the Ministry of Environment & Forests and the State Pollution Control Board from time to time. The emission level will be ensured to be as per the prescribed standards.</p>
ii.	<p>The Coke Oven Plant should be provided with two stage Water Scrubber. Gravity Separators and/or Bag Filters and stack of height 32.3m from G.L. as proposed. Stack emission (PM) should not exceed 50 mg/Nm. Stack emissions should be monitored at regular intervals and records should be maintained.</p>	<p>Agreed and noted.</p> <p>The company will ensure to keep emission level and parameters within the permissible limits through adoption of measures suggested by the Ministry of Environment & Forests and the State Pollution Control Board. The monitoring of emissions will be carried out as per industry practice in the form of emission level indicator devices and periodical sample testing, so generated records will be maintained, as per norms and requirement set out by the Ministry of Environment, Forests & Climate Change and the State Pollution Control Board.</p>
iii.	<p>Regular monitoring of the ambient air quality shall be carried out in and around the plant and records shall be maintained.</p>	<p>Agreed and noted.</p> <p>The monitoring of the ambient air quality being carried out around the plant by associate company of the Group (i.e. OMPL, OMPL-I. OMIPL, BCPL, RML, OMPL-II & OASPL) and records so generated will be maintained properly for needful reference.</p> <p>Also after taking into consideration the interest and financial share cost from associate company of the Group, for monitoring the Ambient Air quality around industrial units of the Group, 04 nos. Continuous Ambient Air Quality Monitoring Station (USEPA/ MCERT approved) are installed covering upwind, downwind and crosswind directions after getting site approval from WBPCB.</p>

		As per the monitoring values the vales of PM10, PM2.5, So2, NOx & CO are within NAAQMS.
iv.	Additional Groundwater shall not be abstracted without prior permission of the local body and the competent authority as per The West Bengal Ground Water Resources (Management, Control and Regulation) Act, 2005.	Agreed and noted. No additional groundwater will be abstracted without prior permission of the local body and the competent authority as per The West Bengal Ground Water Resources (Management, Control and Regulation) Act, 2005.
v.	Coal handling plant will be provided with Bag filters for dust extraction. Coal crusher should be provided with dust suppression system. Regular cleaning of ducts should be carried out.	Agreed and noted. As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management revamping, modification work of the units/ facilities is under progress. APCD is being modified for meeting the latest prescribed emission standard.
vi.	Covered storage yard for raw materials and finished products to be provided. Water sprinkling arrangement should be provided at Coal stockyard. Loading and unloading operations should not be carried out in open areas.	Agreed and noted. As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management revamping, modification work of the units/ facilities is under progress. Suitable arrangement will be made to ensure that the raw materials and finished products are stored, handled and processed under cover to mitigate the emission level, also dust suppression system will be provided suitably.
vii.	Adequate measures should be adopted for controlling fugitive emission during transportation of raw materials and finished products.	Agreed and will be complied
viii.	Stamp charging technology should be adopted. The Coke Oven should be operated under negative pressure. Adequate measures should be adopted for controlling emission from Coke Oven during pushing of coke. Pusher cars should be used for transfer of coke to the quenching section.	Complied As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management revamping, modification work of the units/ facilities is under progress.
ix.	Wet Quenching process should be carried out in closed tower. Adequate measures to be adopted for control of emission from Coke Quenching Tower.	Agreed. As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management revamping, modification work of the units/ facilities is under progress. The said condition will be complied by the new management.
x.	It should be ensured that the effluent from quenching does not have any phenol, cyanide or any other toxic substances. Process effluent discharge is not permitted. Cooling water & quenching wastewater should be recycled after treatment. Zero discharge of effluent should be ensured.	Agreed and noted. It is envisaged to utilise the process effluent in DRI plant of associate company of Group (OMPL-I) in ABC. The plant will be operated as "Zero Discharge" Unit.
xi.	Installation of WHRB should be considered. High temperature flue gas produced during coking may be supplied to WHRB for power generation.	Complied As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management revamping, modification work of the existing units/ facilities is under progress. In order to comply the said condition company has applied for expansions of EC on parivesh portal vide proposal no-SIA/WB/IND1/425643/2023 and has proposed 06 MW WHRB based

		CPP. Standard ToR for expansion project is accorded by SEIAA, West Bengal vide File no-EN/T-TT-1/367/2023 dated 19.04.2023.
xii.	Solid wastes generated should be reused as proposed.	Agreed and noted. The plant will generate the coke fines as solid waste which is envisaged to be utilised in sinter plant of associate company of the Group.
xiii.	Adequate provisions should be made for harvesting rainwater. The unit may develop water body of adequate capacity to harvest rainwater. The harvested water should be used for plantation, firefighting, washing and cleaning etc. Recharging of Groundwater is not permitted.	Agreed and noted. Rain water harvesting will be developed and maintained in the plant premises. The harvested water will be used for green belt development & dust suppression.
xiv.	Ambient noise level should not exceed the permissible limit. The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dB(A) Leq (daytime) and 70 dB(A) Leq (night time) and its subsequent amendments.	Agreed and noted. The company will ensure that the ambient noise level is maintained in and around the plant area well within the standards by providing adequate noise control measures. The ambient noise levels is being monitored by the associate company of the group and all the values are meeting the standards prescribed under EPA Rules, 1989 and its subsequent amendments.
xv.	Green belt shall be developed within and around the plant premises in consultation with DFO / West Bengal Wasteland Development Corporation Ltd/ West Bengal Biodiversity Board. At least 33% of the land area should be covered by plantation.	Agreed and noted. Out of the total project area 5.28 Acres (2.13 hectare) 33% area is already being developed under greenbelt & plantation. Strengthening of green belt and gap filling will be done by. Total plantation to be achieved @ 2500 trees per hectare The plantation activity will be carried out in phase-wise manner concurrent with plant installation and operation stages. Photograph of Green belt are as: 
xvi.	All internal roads should be concreted / pitched. Proper lighting and proper pathway inside the factory premises should be constructed to ensure safe vehicular movement. Provision of separate pathway for entry and exit of vehicles should be considered. Vehicles should conform to pollution under control (PUC) norms, Proper house-keeping shall be maintained within the premises. Solar lighting should be used as far as practicable.	Agreed and noted. All roads inside the plant is being developed and maintained by the new management of the company. Roads will be constructed to facilitate the safe and uninterrupted vehicular movement to and fro within the plant area. It will be ensured that all vehicles operate in conformity to pollution under control (PUC) norms. Sufficient lighting arrangement will be in and around the plant area. The company will explore possibilities for solar power generation on roof tops of buildings and installation of solar light system in all common areas,

Wellman Carbo Metalicks India Ltd.

		street lights, parking etc. Also proper housekeeping will be maintained within the plant area.
xvii.	Health and safety of workers should be ensured. Workers should be provided with adequate personnel protective equipment and sanitation facilities. Occupational Health Surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	Agreed and noted. Workers will be provided with adequate personnel protective equipment and sanitation facilities. Occupational Health Surveillance of the workers will be done on a regular basis and records maintained as per the Factories Act.
xviii.	Adequate measures to be adopted to ensure industrial safety. Proper fire detection & protection systems to be provided to control fire and explosion hazards.	Agreed and noted.
xix.	Corporate Social Responsibility programmes should be carried out as proposed. The proponent should also invest Rs.5 lakhs per annum for implementation of CSR, as proposed.	Agreed and noted. As stated in point no i of the specific condition of EC, the plant was in shut down for a long duration, and post-acquisition of the plant by new management (Rashmi Group), CSR/CER will be implemented in a time bound manner . Rashmi group has a well defined CSR policy and CSR activities are being carried by the Group companies in a time bound manner.
xx.	The implementation and monitoring of Environmental Management Plan should be carried out, as proposed.	Agreed and noted.
General Condition		COMPLIANCE STATUS
i.	The environmental safeguards contained in the EMP report should be implemented in letter and spirit. The project proponent shall comply with all the environmental protection measures and safeguards recommended. Further, the unit must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes. Drinking water supply and health care etc.	Agree to complied All the environmental safeguards and environmental protection measures will be implemented by the new management.(Rashmi Group) Rashmi group has a well defined CSR policy and socio-economic development activities in the surrounding villages will be undertaken in parallel with operation of the plant like community development programmes, educational programmes, drinking water supply and health care etc.
ii.	All the conditions, liabilities and legal provisions contained in the EC shall be equally applicable to the successor management of the project in the event of the project proponent transferring the ownership maintenance of management of the project to any other entity.	Agreed & Noted
iii.	Provision should be made for the supply of kerosene or cooking gas to the labourers during construction phase. All the labourers to be engaged for construction works should be screened for health and adequately treated before issue of work permits.	Already Complied with
iv.	The project proponent should make financial provision in the total budget of the project for implementation of the environmental safeguards. The project authorities will provide requisite funds both recurring and non-recurring to implement the conditions stipulated by the SEIAA along with the implementation schedule for all the conditions stipulated herein. The funds so provided should not be diverted for any other purpose.	Agreed and will be complied All the environmental safeguard will be undertaken by new management of the company to comply with latest stack emission and fugitive emission standards.
v.	No further expansion or modifications in the plant should be carried out without prior approval of the State Level Environment Impact Assessment Authority.	Agreed & Noted In compliance to this point new management has applied for expansions EC on parivesh portal vide proposal no-SIA/WB/IND1/425643/2023

Wellman Carbo Metalicks India Ltd.

Director/Authorised Signatory

		and has accordingly obtained Standard ToR for expansion project from SEIAA, West Bengal vide File no-EN/T-TT-1/367/2023 dated 19.04.2023.
vi.	The West Bengal Pollution Control Board, who would be monitoring the implementation of environmental safeguards, should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A six monthly compliance report and the monitored data along with statistical interpretation shall be submitted to the WBPCB regularly. A complete set of all the documents should also be forwarded to the State Level Environment Impact Assessment Authority.	Agreed & Noted In compliance to this point the existing EC compliance report is being submitted by new management.
vii.	In case of any violation of the conditions laid down in this Environmental Clearance, Section 16 of The Environment (Protection) Act, 1986, will be applicable.	Agreed & Noted
viii.	In case any change(s) in the scope of the project, the project would require a fresh appraisal by the SEIAA.	Agreed & Noted
ix.	The State Level Environment Impact Assessment Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time-bound and satisfactory manner.	Agreed and Noted
x.	The Project Proponent should inform the public that the project has been accorded environmental clearance by the SEIAA and copies of the clearance letter are available with the State Pollution Control Board/ Committee and may also be seen at website of the SEIAA (http://enviswb.gov.in). This should be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned.	Agreed and Noted
xi.	The Project Authorities should inform the State Pollution Control Board as well as the SEIAA, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work/project implementation.	Agreed & Noted
xii.	Prior Consent-to-Establish (NOC) for the proposed expansion project must be obtained from WBPCB before commencement of construction. All other statutory clearances should be obtained by project proponent from the competent authorities.	Agreed & Noted Consent-to-Establish for the EC sanctioned capacity is already obtained by the old management from WBPCB
xiii.	All mandatory approvals and permission as required from Director of Explosives, Fire Department etc. should be obtained.	Agreed & Noted
xiv.	The environmental clearance accorded shall be valid for a period of 5 years for the proposed project.	Noted
xv.	The above stipulations would be enforced along with	Agreed & Noted
